

Use of Central Capital Fund

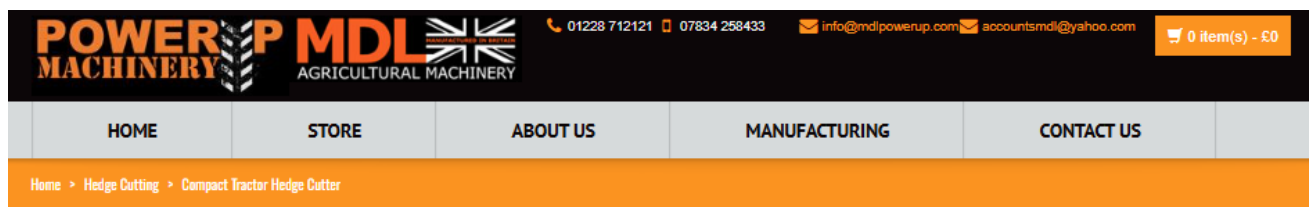

The Amenities and Environment Committee are seeking the purchase of an addition flail for the tractor, to be funded from the Central Capital Fund.

The model proposed is the Powerup A80 Hedge Cutter Combi. This will enable hedges, banks and verges to be cut with ease, whereas the existing flail works well on clearer, flat areas, but is not so effective in overgrown, more difficult to reach areas. The models found are right-hand cut, whereas left-hand cut is needed to enable to tractor to cut from the highway, whilst travelling with the flow of traffic. If this proposal is approved, officers will investigate further the possibility of the cutting direction being reversed.

Only two stockists have been found:

MDL Agricultural Machinery: £4,950 (excluding VAT)
